

**IN THE CLAIMS:**

B<sup>1</sup>

1. (Currently Amended) ~~Use of tosylchloramide(s), tosylchloramide salt(s), their derivatives and/or decomposition products for manufacture of medicaments to treat~~  
A method of treating diseases of the skin and mucous membranes as well as organs and tissues, except for treatment of retroviral-(HIV)-diseases and disinfection, comprising the administration of tosylchloramide(s), tosylchloramide salt(s), their derivatives, decomposition products and mixtures thereof for manufacture of medicaments.

2. (Currently Amended) ~~Use according to~~ The method of Claim 1, characterized in that the diseases affect the skin and the mucous membranes.

3. (Currently Amended) ~~Use according to~~ The method of Claim 2, characterized in that the diseases result or may result in efflorescences.

4. (Currently Amended) ~~Use according to~~ The method of Claim 1, characterized in that the diseases and/or efflorescences may be caused by microorganisms and/or accompanied by microorganisms.

5. (Currently Amended) ~~Use according to~~ The method of Claim 1, characterized in that the diseases constitute parasitic diseases, in particular scabies, pediculosis or creeping eruption.

6. (Currently Amended) ~~Use according to~~ The method of Claim 1, characterized in that the diseases affect:

- a) the eye, in particular the lid, conjunctiva or cornea of the eye;
- b) the ear, in particular the exterior of the ear;
- c) the nose, in particular the nasal cavity;

B<sup>1</sup>  
Cont

- d) the lips and mucous membranes of the mouth and/or the tongue;
- e) the vulva and/or vagina;
- f) the penis, in particular the glans penis and the prepuce;
- g) the anus;
- h) the nail, in particular the body of the nail, the wall and fold of the nail as well as the root of the nail;

and

- i) the hair, in particular the hair follicles and the sebaceous glands;
- j) the hands and feet, in particular the spaces between the fingers and toes.

7. (Currently Amended) ~~Use according to The method of Claim 1, characterized in that the~~ wherein said tosylchloramide(s), tosylchloramide salt(s), their derivatives and/or decomposition products are present in the an employed base in an amount of approximately 0.1 to 20% by weight.

8. (Currently Amended) ~~Use according to The method of Claim 1, characterized in that wherein a~~ tosylchloramide salt is employed, in particular chloramine T.

9. (Currently Amended) ~~Use according to The method of Claim 7, characterized in that wherein the~~ base constitutes a liquid, semi-solid or solid, water-containing or water-free galenic preparation.

10. (Currently Amended) ~~Use according to The method of Claim 9, characterized in that wherein the~~ base constitutes an ointment, a gel, a cream, a paste, a suppository, such as a vaginal suppository, an adhesive bandage, a tablet, such an effervescent or vaginal tablet, or a capsule, a stick, a pulverized substance, a powder, a solution, an aerosol, a two-compartment system or a suspension, such as a shak mixture/dry suspension.

11. (Currently Amended) ~~Use according to The method of Claim 9,~~  
~~characterized in that wherein~~ the base constitutes a dosed aerosol or a dosed solution.

B1  
Cont  
12. (Currently Amended) ~~Use according to The method of Claim 9,~~  
~~characterized in that wherein~~ the base constitutes a bath water additive.

13. (Currently Amended) ~~Use according to The method of Claim 9,~~  
~~characterized in that wherein~~ the salve is an O/W- or a W/O-emulsion ointment.

14. (Currently Amended) ~~Use according to The method of Claim 7,~~  
characterized in that the base is a cortisone-containing preparation, containing the  
tosylchloramide(s), tosylchloramide salt(s), their derivatives and/or decomposition  
products in an amount of approximately 0.1 to 20% by weight.

15. (Currently Amended) ~~Use according to The method of Claim 9,~~  
~~characterized in that wherein~~ the base is a gel, in which are present comprising the  
tosylchloramide(s), tosylchloramide salt(s), their derivatives and/or decomposition  
products in an amount of approximately 0.1 to 5% by weight.

16. (Currently Amended) ~~Use according to The method of Claim 9,~~  
~~characterized in that wherein~~ the bath water additive is employed in form of pulverized  
substance or bath salt tablet or effervescent tablet, which is applied in water in a  
concentration of approximately 0.1 to 1% by weight.

17. (Currently Amended) ~~Use according to The method of Claim 1,~~  
~~characterized in that wherein~~ the tosylchloramide(s), tosylchloramide salt(s), their

derivativ s and/or decomposition products are present in the an employed base in an amount of approximately 5 to 15% by weight.

B1  
contd

18. (Currently Amended) ~~Use according to~~ The method of Claim 1, ~~characterized in that~~ wherein the tosylchloramide(s), tosylchloramide salt(s), their derivatives and/or decomposition products are present in the an employed base in an amount of approximately 8 to 12% by weight.

19. (Currently Amended) ~~Use according to~~ The method of Claim 9, ~~characterized in that~~ wherein the base is a gel, in which are present the tosylchloramide(s), tosylchloramide salt(s), their derivatives and/or decomposition products in an amount of approximately 0.1 to 2% by weight.

20. (New) A medicament for treating diseases of the skin and mucous membranes as well as organs and tissues, except for treatment of retroviral (HIV) diseases and disinfection, comprised of a base material and a tosylchloramide(s), tosylchloramide salt(s), their derivatives, decomposition products and mixtures thereof.
